Important Dates

- **Application Opens:** August 4, 2020 (12:00PM EDT)
- **Application Deadline:** October 4, 2020 (11:59PM EDT)
- **Anticipated Notice of Decision:** December 1, 2020
- **Anticipated Funding Start Date:** January 4, 2021

Description

The SPOR Evidence Alliance Seed Grant aims to encourage a culture of learning, innovation, and advancement of science in the areas of knowledge synthesis, guideline development, knowledge translation, and patient-oriented research by funding methods projects at the conceptual stage.

Only projects studying **methodological advancements of guideline development in a patient-oriented research setting will be considered**. Guideline projects themselves are not eligible for inclusion. Successful projects must have a strong focus on patient-oriented research and include stakeholder engagement in the conduct of the work.

**NOTE:** Priority will be given to proposals that aim to engage and improve health outcomes for Black, Indigenous, and socioeconomically disadvantaged populations.

**What is a guideline?**
For the purpose of this grant, guidelines are defined as a set of evidence-informed recommendations related to practice, public health, or policy for informing and assisting decision-makers (e.g. policy-makers, health care providers, or patients).¹

Value and Duration

- Up to 2 awards valued at **$10,000** each for one year (non-renewable)

Eligibility

Applicants must meet the following eligibility criteria:

- a **registered member** of the Evidence Alliance
- a **doctoral student, post-doctoral fellow or an early career investigator** (i.e., full-time, independent researcher for a period of 0 to 5 years)² at a **Canadian institution**, and

---

Seed Grant Competition

- if doctoral student or post-doctoral fellow, your academic supervisor/mentor must also be a member of the Evidence Alliance
- your project is planning to explore methodological advancements of guideline development in a patient-oriented research setting

**NOTE:** If you are not yet a member of the Evidence Alliance, you and your academic supervisor/mentor can complete the member registration at the following link: https://sporevidencealliance.ca/get-involved/become-an-alliance-member/

**Expectations**

Successful candidates are expected to:
- **Present their work** at a 2021 summer webinar or at the 2021 Annual General Meeting
- **Provide a financial report and an annual report** on their progress; due within 6 months after the end of the funding period
- **Acknowledge the Evidence Alliance** for provision of financial support in any publications, poster presentations, and other dissemination activities

**Application Review Process**

- Reviewers will be selected from a pool of Evidence Alliance members with relevant experience and expertise
- Each reviewer will be asked to declare all conflicts of interest at the beginning of the application review process
- Each application will be independently reviewed and scored using a standardized assessment form by two patient partners and two researchers
- All applicants will be ranked based on the average of the four scores they received
- The top two scoring applications will be awarded

**Assessment Criteria**

Each application package will be rated using the following assessment criteria:
- **Concept (25%)** – Relevance of the Research, Significance and Impact of the Research
- **Feasibility (75%)** – Approaches and Methods, Expertise, Experiences, and Resources

See Appendix 1 and Appendix 2.

**Application Process**

**Important:** Please read all instructions in order to become familiar with the application process before applying.

To complete your application, follow the specific instructions and submission requirements listed below.

**Required Documents**
- ☐ Canadian Common CV *(draft version is acceptable)*
- ☐ Project Budget
- ☐ Project Timeline
Grant funds must contribute towards the direct costs of the research for which the funds were awarded, and the benefits should be directly attributable to the grant. The host institution of the successful applicant is responsible for paying any indirect or overhead costs associated with managing the research project funded by the SPOR Evidence Alliance.

Examples of ineligible costs include but are not limited to: salaries for staff who provide administrative support only, training costs for workplace health and safety, costs related to the maintenance of libraries and laboratories, and administrative costs associated with getting a patent for an invention. For a complete list and description of eligible expenses under this grant, please consult the Tri-Agency Financial Administration Guide.

Eligible expenses can include, but are not limited to the following:

- Payment for research staff (e.g., research assistant)
- Technical services, such as transcription, language translation
- Materials and supplies (e.g., copying, mailing, software/tools)
- Travel related to conducting (including meetings with decision makers/policy makers if project relevant) and/or disseminating research
- Costs related to community mobilization and engagement, including culturally relevant promotional items such as tobacco, cloth, and cash reimbursements (in a method acceptable to the individual or community being reimbursed) to compensate community participation
- Contracts and/or consultant fees for knowledge translation and communication activities

**Specifications**

- In order to ensure fairness in the evaluation of grant applications, equivalent time must be guaranteed for each reviewer to assess each application. As a result, the Evidence Alliance will not accept any updates to applications after the application deadline
- Applications will be accepted from August 4 (12:00PM EDT) – October 4 (11:59PM EDT)

*** Failure to comply with the above requirements will negatively impact the evaluation/rating of the applications and can lead to their withdrawal from the Seed Grant competition. ***

**For Inquiries**

For all inquiries, please contact the Evidence Alliance at SPOREA@smh.ca.

3 Adapted from CIHR Peer Reviewer Manual – Project. Accessed May 19th, 2020 from https://cihr-irsc.gc.ca/e/49564.html#4.2.1

4 Grading Criteria

| 4.5-4.9 | Outstanding | The application excels in most or all relevant aspects. Any short-comings are minimal. |
| 4.0-4.4 | Excellent | The application excels in many relevant aspects, and reasonably addresses all others. Certain improvements are possible. |
| 3.5-3.9 | Good | The application excels in some relevant aspects, and reasonably addresses all others. Some improvements are necessary. |
| 3.0-3.4 | Fair | The application broadly addresses relevant aspects. Major revisions are required. |
| 0.0-2.9 | Poor | The application fails to provide convincing information and/or has serious inherent flaws or gaps. |
### Objectives of the Project Well-Defined?
- The goal states the purpose of the project, and what the project is ultimately expected to achieve.
- The objectives clearly define the proposed lines of inquiry and/or activities required to meet the goal.
- The proposed project outputs (i.e., the anticipated results of the project) are clearly described and aligned to the objectives.

### Are the Anticipated Project Contributions Likely to Advance Basic Health-Related Knowledge, or Health Care, or Health Systems or Health Outcomes?
- The context and needs (issues and/or gaps) of the project are clearly described.
- The anticipated contribution(s) (e.g., publishing in peer-reviewed journals) are clearly described, and should be substantive and relevant in relation to the context of the issues or gaps.
- The anticipated contribution(s) are realistic (i.e., directly stemming from the project outputs, as opposed to marginally related).

### Feasibility – Approaches and Methods (50%)

- **Are the approaches and methods appropriate to deliver the proposed output(s) and achieve the proposed contribution(s) to advancing health-related knowledge, health care, health systems, and/or health outcomes?**
  - The research and/or knowledge translation/commercialization approaches, methods and/or strategies are well-defined and justified in terms of being appropriate to accomplish the objectives of the project.
  - Opportunities to maximize project contributions to advance health-related knowledge, health care, health systems and/or health outcomes should be proactively sought and planned for, but may also arise unexpectedly.

- **Does the proposal describe how patient partners and other decision-makers will be engaged in the research process?**
  - Proposal should outline a clear plan for stakeholder engagement (including patients) in the research process.

- **Are the timelines and related deliverables of the project realistic?**
  - Timelines for the project should be appropriate in relation to the proposed project activities. Key milestones and deliverables should be aligned with the objectives of the project, and be feasible given the duration of the project.

- **Does the proposal identify potential challenges and appropriate mitigation strategies?**
  - Critical scientific, technical, or organizational challenges should be identified, and a realistic plan to tackle these potential risks should be described. An exhaustive list is not expected.

### Feasibility – Expertise, Experiences, and Resources (25%)

- **Does the applicant bring the appropriate expertise and experience needed to execute the project (i.e., deliver**
| Expertise and experience to lead and deliver the proposed output(s), and to achieve the proposed contribution(s)? | The proposed outputs as well as achieve the proposed contribution(s).
  - The role and responsibility of the applicant should be clearly described, and linked to the objectives of the project. |

| Is there an appropriate level of engagement and/or commitment from the applicant? | The level of engagement (e.g., time and other commitments) of each applicant should be appropriate to the roles and responsibilities described. |

| Is the environment (academic institution and/or other organization) appropriate to enable the conduct and success of the project? | The project applicant should have access to the appropriate infrastructure, facilities, support personnel, equipment, and/or supplies to: (1) carry out their role, and; (2) manage and deliver the proposed output(s), and achieve the proposed contribution(s). |

| Overall Score (please weight score according to section) |

| Based on your overall assessment, would you rate this application as competitive? *(Competitive applications will be considered for funding)* | Yes, this application is competitive (top 50%) and should be considered for funding. |
| Yes, this application is competitive (top 50%) and should be considered for funding.  | No, this application is not competitive (bottom 50%) and should NOT be considered for funding. |

| Overall Score *(office use only) ___ OUT OF 4.9* |
Please review your assigned applicant’s research proposal carefully and complete the questionnaire below. Feel free to add comments to elaborate on your assessment as needed.
