Since 2018, we responded to 276 requests from 53 different organizations nationally and internationally.

Range of decisions informed:

115	Public-health measures (e.g., infection prevention and control, surveillance, health promotion)
45	Healthcare system arrangements (e.g., governance, delivery, financial)
47	Clinical management or guidelines (e.g., symptom management, treatment)
20	Public health system arrangements (e.g., governance, delivery, financial, partnerships, communication)
19	Knowledge exchange and mobilization
16	Economic and social responses (e.g., social gathering, economic impact)
4	Health, public and/or organizational policies (e.g., legal, administrative)

We create a culture of learning and innovation that grows, supports, and sustains an environment for patient-oriented research using the SPOR Capacity Development Framework.
